## WERC ENVIRONMENTAL DESIGN CONTEST 2026 FACULTY ADVISOR HANDBOOK

### **Your source for:**

- Faculty-specific WERC policies –
- The roles and expectations of faculty advisors at the contest –

This manual avoids duplication of information provided in the *Team Manual* and the *Team Success Guide*. Refer to those documents for contest guidelines, regulations, and hints to help your team be competitive at the contest.

### **New this year:**

- The *Team Manual* (containing all policies and regulations) is printed separately from the *Team Success Guide* that contains helpful hints and contest philosophy.
- A Business Plan Checklist and Academic Integrity Statements (including the use of AI) have been added to the *Manual*.
- The WERC Team Site (for registration, submissions, and scores) has moved to: [WERC Team Site](#) (hosted by the Institute of Competition Sciences). Instructions are included in this Handbook.
- 30% Project Reviews are requested in January for every project.
- Your Team Leader may reserve an Oral Presentation practice room prior to arriving at the contest.
- The Flash Pitch Presentation will identify your institution.

# 2026 WERC ENVIRONMENTAL DESIGN CONTEST FACULTY ADVISOR HANDBOOK

## CONTEST REGULATIONS AND GUIDELINES

- The contest will be held in Las Cruces, NM. April 12-15, 2026.
- Refer to the *Team Manual* for contest policies and regulations.
- Refer to the *Team Success Guide* for helpful hints and contest philosophy to help teams compete effectively.
- Ensure that each team reads the entire *Team Manual* aloud as a team. It is also a good idea to have them read the *Team Success Guide* as a group.
- Note that our [Guidelines](#) web page includes sample award-winning papers from previous years at the Contest.

- Morning and afternoon: Teams have free time while judges deliberate
- 5:30 – 8:30 PM: Awards Banquet and Ceremony. Dinner served.
- Thank you for joining us! Keep in touch.

## CONTEST PHILOSOPHY AND STRUCTURE

**WERC Contest events are modeled after an engineering Request for Proposals.**

The WERC Environmental Design Contest simulates the problem-solving process an engineer might encounter on the job. It follows the Request for Proposal (RFP), a format that companies often use to solicit new engineering designs. When responding to the contest (or any) RFP, teams should consider opportunities to add value to the client.

RFPs vary from company to company. We have selected elements of RFPs that provide effective ways for students to learn about the engineering design process. At the contest, teams select from among the RFPs, submit a technical report, give an oral presentation, attend a poster session, and build a bench-scale system to demonstrate the feasibility and efficacy of their design. Winning a cash prize at the contest is analogous to winning an engineering contract. See the Team Manual for more details about how each event in the design contest is modeled after the engineering RFP

**Contest entries go beyond a simple science-fair-type display.** Teams demonstrate their working bench-scale process and plan for full-scale implementation, considering factors such as cost, waste, schedule, feasibility, safety, regulations, and public acceptance. WERC analytically tests the teams' processes/designs in our own independent labs.

Scoring for the main contest is in four stages:

1. Technical report
2. Oral presentation
3. Bench-scale-process demonstration
4. Poster session

The Flash Talks are scored independently.

## CONTEST OVERVIEW

1. **Assign a Team Leader and have that person be the primary contact between WERC and your team.**
  - a. *The projects should be student-run*—entirely organized, designed, and built by students, with faculty serving as mentors for the teams.
  - b. *Faculty advisors are expected to take a “hands-off” approach*, serving only as advisors and not taking over the design and implementation.
  - c. *The contest should take very little time from your schedule.* The burden should be on the Team Leader and the team.
2. **Specified Task vs the Open Task.** The five specified tasks are designed by engineering professionals to meet an immediate environmental need. The Open Task allows teams to choose their own topic; teams are responsible for setting all parameters for designing and testing their solution for the Open Task.  
If a team wants to work on the Open Task, we recommend that you have them send us their idea early to get feedback from the judges and to ensure that the task is set up to be competitive. Most teams do not fully understand the rigor expected at the contest and tend to propose overly simplified Open Task problems.
3. **Questions about the contest or about a specific task.** The student Team Leader should contact us directly. Teams should also check our FAQs on a weekly basis. We have two FAQ locations:
  - [General FAQs](#)
  - [Task-specific FAQs](#)

The Program Manager is also happy to answer questions at ANY TIME, even middle of the night, as the contest grows nearer and submissions are due.

[Go to Table of Contents](#)

4. **Project Start Dates – Fall vs. Spring.** Some teams start their research in the fall semester and build their bench-scale models in early Spring, but many teams wait until Spring to begin. Both models have been equally successful. The true key to success lies in the organization and dedication of team members.
5. **Advisor's Pre-contest actions and submissions** (in order of due date)
  1. **Register your team.**
  2. **Submit your institution's W9.** In anticipation of your team winning a cash award, upload your institution's W9 during registration (or soon thereafter). The US federal government requires that we submit a W9 for each institution that wins a cash award to demonstrate that the award is not taxable. Obtain the W-9 through your business office. If your W9 is already on file with the contest, there is no need to upload it again.
  3. **Help teams find auditors:** Help the teams identify good auditors early—hopefully outside of your school. Teams should send their draft report to 3 separate auditors (economics, legal, and health & safety) at least 3 weeks before the paper is due. (See *Team Manual*). After receiving audits, the team corrects their report, as needed. This is scored: Judges will compare the auditor review with the finished paper.
  4. **Submit the Intel's Terry McManus Outstanding Student Award nomination letter, if desired.**  
As outlined in the *Team Manual*, in 2006, Intel established the Terry McManus Memorial Award to recognize students who demonstrate Terry's passion for environmental excellence. This memorial award is presented to up to three students per year who demonstrate a passion for environmental conservation.
    - Hold a vote of all of your students to determine your school's nominee. We found it best to involve the students in the nomination process, rather than leaving the selection solely to the Advisor.
    - The advisor writes a one-page nomination letter. The letter should demonstrate the student's exemplary actions during the contest, their ongoing commitment to environmental excellence, community projects, environmental research, or similar contributions. Outstanding performance at the design contest will be considered, but it is not the sole criterion for this award.
    - Submit your nomination letter to the WERC team site by 10:00 PM, Tuesday, April 14, 2026. Letters will be distributed to the judges on Wednesday for the final decision.
6. **Team Pre-contest actions and submissions** (in order of due date)
  - **Team Photos:** Submit at least one photo immediately after registering. We request both a "traditional" and a "fun" photo, but a team may opt to submit only one photo of their choice. The photos will be used for social media and during contest slideshows. Consider taking this photo for the team.
  - **Mandatory on-demand course for all team members:**  
Team Leader: Email us to request a link to the course, 'Developing the Experiment Safety Plan'. Course opens in mid-December. Deadline for attending: February 20, 2026.
  - **30% Project Review:** Required for every Task, including the Open Task. Due in late January.
    - Technical experts (contest judges) review the report and suggest any modifications. Submitting earlier will be advantageous because the reviewer may suggest important course corrections.
    - The *Team Success Guide* recommends courses of action to students in case reviewers' comments call for major design changes.
    - See the [30% Project Review Form](#) and the Task Problem Statement for specific requirements.
  - **Experimental Safety Plan:** Due March 13, 2026. Required for ALL teams operating a bench-scale apparatus. Teams must submit the ESP by the deadline to qualify to run their apparatus at the contest. Before the contest, your teams should follow your institution's safety protocols for laboratory work.
  - **Equipment Transportation Form:** If shipping equipment to Las Cruces, submit the Equipment Transportation Form 10 working days before the contest. Allow time for packages to arrive here by Sunday, as that is the primary day for setting up the team's bench-scale demonstration.
  - **Technical Report.** Requirements are outlined in the Task Problem Statement.

## THE ROLE OF ADVISORS AT THE CONTEST

This section addresses as “advisor” any faculty member who interacts with the team on an advisory basis as they prepare for the April contest.

Faculty advisors should adopt a “hands-off” approach when advising their students, serving primarily as coaches for their teams. Allow your students to grow as engineers, design their own solutions, and make all final decisions about their designs. Give them the opportunity to make mistakes along the way, but feel free to advise them to make course corrections if needed.

Advisors should feel free to review the team’s technical report before it is submitted and critique their oral and poster presentations, their bench-scale demonstration, and their Flash Pitch.

### ***Faculty advisors will be responsible for:***

1. Registering and paying for their teams prior to the contest.
2. Submitting their school’s W9, if not submitted in a previous year.
3. Appointing a Team Leader—a student on the team who will be responsible and assume most organizational duties at the contest.
4. Helping the team identify potential auditors who are outside the school system.
5. Advising their teams, as needed, as they prepare to attend the contest.
6. Ensuring safety for all: guiding their teams’ experimental safety protocols in the home lab and supporting WERC’s ESP protocols at the contest.
7. Teaching their teams to be autonomous and ensuring that the Team Leader is an effective leader.
8. Bringing their teams to the contest.
9. Nominating a student for the Intel Terry McManus Outstanding Student Award (*Optional*).

*Some faculty advisors choose to take on these additional responsibilities, but they can also be put on the teams:*

1. Making arrangements for shipping equipment to the contest, if needed. (See Team Manual)
2. Helping teams find auditors for their technical report. (See Team Manual)
3. Arranging fun outings for the teams during contest breaks (Tuesday evening and Wednesday morning). One university makes WERC a particularly fun adventure to see the western US by taking their teams on a trip to the Grand Canyon following the contest. It is amazing how little extra cost it adds.

### ***Faculty advisors should not:***

1. Dominate their team’s projects.
2. Spend too much time organizing the team: give the team responsibility for organizing themselves.
3. Hover over their teams at the April contest. Let them be independent. Some judges advise that the advisor go play golf while their teams are competing, though most advisors find this very difficult to do.

## ALL ROLES

Everyone on a team, whether student, advisor, co-advisor, will have the ability to upload submissions during the contest for the team they are registered for and to view team scores after the contest for the team they are registered for.

## ADVISORS VS. CO-ADVISORS

At your home institution, we encourage you to establish any advisor/team relationship that works for you. You may have chosen to assign only one advisor to each team, or you may have multiple advisors per team.

However, when registering for the contest, faculty will be assigned either the role of Advisor or Co-Advisor. The distinction between the two roles is purely administrative. It helps WERC identify your institution's primary faculty point of contact and helps your institution avoid duplicate registrations and payments.

Both roles are assumed to be faculty at your institution, but any responsible party selected by your institution can register as an Advisor or Co-Advisor. In fact, one California team assigns a senior or first-year grad student to serve as the team's Advisor. The faculty still attends with the team at the contest, but their job is extremely easy, since theirs is truly a student-run team.

### The Advisor (The "Coach")

One Advisor is required because the Advisor is the only person who can register and pay for teams. If the institution is registering multiple teams, there is a discount for the second, third, etc., teams registered under the same Advisor. Therefore, to qualify for the discount, most schools will use the same Advisor to register all of the teams.

#### *Advisor Duties:*

- Usually advises the teams in technical matters.
- Initiates team registration for all teams from an institution
- Pays for registration
- Accompanies the teams to the contest

### Co-Advisors

Co-Advisors are additional faculty/staff from your institution who officially register for the contest because of one or more reasons:

- They plan to attend the contest,
- They would like access to the team's online submissions and final scores, and/or
- They would like to receive contest SWAG (t-shirt, advisor jacket, etc.).

An institution may register as many Co-Advisors as it wishes. A registered Co-Advisor will be included in the team count when computing registration fees, as we assume they will be attending the contest, dining with us, and receiving SWAG, among other activities.

If your school has multiple advisors who will not attend the contest with the team, they can be omitted from registration. If you are in doubt about assigning Co-Advisors during registration, please contact us, and we can discuss your specific needs.

#### *Registered Co-Advisor Duties may include one or more:*

- Advises the teams in technical matters,
- Accompanies the teams to the contest,
- Has access to upload submissions to the WERC Team Site only for the team he/she is registered under.
- Has access to final scores on the WERC Team Site after the contest only for the team he/she is registered under.

## DAY-BY-DAY ADVISOR GUIDE TO THE ONSITE CONTEST IN LAS CRUCES

### *Sunday:*

1. Check in at the Registration booth.
2. Help the teams set up their equipment in the bench-scale area.
3. Be available to run to the store for missing components.
4. Be aware that teams can sign up for a brief practice session in their assigned Oral Presentation room
5. Attend the one-hour Meet & Greet (New this year!)
6. Attend your teams' Flash Pitch(es) – if you have multiple teams, we try to schedule presentations to allow you to attend all of them.
7. Attend the Welcome banquet with the team
8. Attend the mandatory safety meeting and ensure that all students are present.
9. Accompany the team (if desired) back to the bench-scale area after dinner for any setup needs
10. As teams are setting up and operating their equipment, serve as a second set of eyes to ensure that your team(s) are adhering to WERC's safety protocols.

### *Monday:*

1. Oral Presentations:
  - a. Should you attend? Maybe. There are differing opinions on this. Some experienced judges think that a faculty advisor's presence at the Oral Presentation results in poorer performance because they feel less confident in the presence of their advisor. However, some advisors want to attend. We leave the decision up to you.
  - b. Scheduling. We schedule the Orals to allow you to attend all of your teams' presentations, should you wish. If you attend your team's Oral Presentation, sit in the back to avoid distracting your team from their interactions with the judges. Try to look relaxed and smile confidently at your team, no matter what they say or do.
  - c. Advisors may help students with technical difficulties during the presentation, but should let the students take the lead in solving problems, if possible.
  - d. Advisors should not, under any circumstances, answer judges' questions about the project or try to clarify any issues brought up by the team. There is a significant penalty for a faculty advisor becoming involved in discussions about the team's design.
  - e. After the team and advisor leave the Oral Presentation room, advisors are allowed to give coaching instructions to their team. It is likely that judges asked questions that the team could not answer. This is a good time to remind the team to look up the answers in preparation for the bench-scale demonstration.
2. Poster Session:
  - a. Should you attend? Probably not. Space is limited in the banquet hall; it is best for you to wait outside and query the students about their experience after the session is over.
  - b. If you wish to be in the same room as your team, station yourself at a table in the center of the banquet hall, leaving room near the posters for the team and the judges. Posters will be displayed around the perimeter of the banquet hall.
3. Bench-scale Demonstration area on Monday:
  - a. There is no judging on Monday in the bench-scale area, but teams will be running their equipment when they are not involved in their oral or poster sessions.
  - b. The minimum PPE required in the bench-scale area on Monday and Tuesday is: long pants, close-toed shoes, and safety glasses, and more if required by your team's ESP.

- c. Teams may need a change of clothing as they move from the presentations to the bench-scale demonstration area.
- d. Feel free to leave your team alone to run their devices, or chat with them, or go visit other booths to learn something new!

### *Tuesday:*

1. Bench-scale Demonstrations:
  - a. Should you attend? No. Do not be within earshot while the judges are visiting with your students. You can wait in the Break Area, located at the far side of the room, until your students have finished speaking with the set of judges.
  - b. Three sets of judges will visit each of your teams' booths. Judges' visits are scheduled in ½ hour increments, but they sometimes get off schedule. If you are speaking with your team when a set of judges approaches, quickly excuse yourself and wait in the Break Area, or visit a team that is not currently speaking with a judge.
  - c. After judges leave, you may approach your students to learn what was asked/answered and give your students tips, if desired. Be sure to walk away if another set of judges approaches your team.
  - d. Help your teams prepare for Decommissioning. All teams are embarking on the same adventure simultaneously. Encourage your teams to be civil and patient! They will be decommissioned sooner that way.
2. Flash Pitch Final Round. Should you attend? Yes! After the bench-scale teardown, join us in the Ventanas Ballrooms for the Flash Pitch Final Round. We hope your team was invited to compete!
3. Game Night. Should you attend? Yes! It is a great way to build camaraderie among your teams and with other teams.
  - a. Game night is a chance for teams to relax and have some fun. We will have:
    - i. An assortment of giant games (tumble tower, ladder ball, 4-in-a-Row, corn cob toss, etc.).
    - ii. Mixer games
    - iii. Southwestern entertainment
    - iv. Taco Bar or other refreshments
  - b. The event is 4:00 – 5:30 PM. Some teams choose to eat lightly because they want to go out afterwards to enjoy some local cuisine.

### *Wednesday:*

1. Morning: Free time for teams while the judges deliberate. Teams use this time to explore local sites. White Sands National Monument is a favorite spot. Some go to Truth or Consequences for the Hot Springs. Others go hiking or exploring the many wonders of Las Cruces and the Mesilla Valley. (See website: [Explore Las Cruces](#)). Please let your teams know that the judges are hard at work during this time.
2. Evening: Awards Banquet
  - a. 5:30 – 8:00 PM
  - b. Should you attend? Absolutely! If your team wins a prize, they will need your support, and **WERC will need you to sign a Payment Request Form.**
  - c. If your team does not win a prize, they will need your support even more.

## CASH AWARD PAYMENTS AND TROPHIES

**Cash Awards.** A team has the potential to win over \$4800 in cash if they place first in all possible categories (Task Award (\$2500), Bench-scale Competition (\$1000), Flash Talks (\$1000), Peer Award (\$300).

**Award Checks.** WERC will issue a single check to each institution for the school's total amount of winnings for all teams. It is the institution's responsibility to determine how the winnings will be used and distributed. If money is to be distributed among the team members, it is the institution's responsibility to do this.

Many schools choose to start a WERC Environmental Design Contest fund and use the prize money to fund future contest participation.

The Terry McManus prize is awarded to individual students; therefore, a check will be sent directly to each winner.

**Trophies.** At the Awards Ceremony, WERC awards trophies in addition to cash prizes. The trophies are fragile. They are boxed with padding—make sure you take the box with you! Pack them securely for the trip home.

**Forms.** The NMSU Business Office requires that you complete two forms before we can send a check to you.

1. **W-9:** This should be on file soon after you register your team. (See [Institution's W9](#), above.)
2. **Payment Request Form:** Immediately after the Awards Ceremony, the Advisor will be asked to sign an NMSU Payment Request Form (PRF). On this form, you will find an itemization of all award winnings for your teams, along with the total amount that all of your teams collectively won.

### Before signing the Payment Request Form (PRF):

- a. Ensure that the address on the form is the one to which you want the check sent. When we pre-fill the form, we use the address that the Advisor lists in their profile during registration.
- b. Verify the total cash awards listed on the PRF. Ensure that these match your records. During the awards ceremony, record down the description and amount for each award your teams receive. Sum these for all teams to determine the expected payout, and confirm that it matches our records before signing the form.

## WERC - IEEE CONFERENCE INVITATION

During the contest, judges will evaluate your team's technical report, oral presentation, poster discussion, and bench-scale demonstration to recommend the teams who will be invited to submit a paper to WERC's IEEE Conference, The *Waste-Management and Education Research Conference*.

**Your role:** If your team is selected to submit a paper for further review, please read their 12-page paper to ensure that the report is of a purely technical nature and that they have updated their paper to reflect new insights they gained during the contest. Publication decisions will be made late in the semester, when your teams are likely preparing for summer internships or graduation. We appreciate your help in ensuring that your teams' papers are accepted. You are welcome to include your name on the author list of the paper.

A team that is invited to submit a paper will be asked to:

1. Put the paper in IEEE publication format (templates provided on [WERC's website](#)).
2. Reduce the paper to 12 pages after being transferred to IEEE's format.
3. Ensure that the paper contains only the technical aspects of the report (omitting items such as the business plan, regulations, community involvement, and audits)
4. Update their findings and conclusions, based on what they learned during the contest.
5. The paper will be sent to their judges to confirm that appropriate changes were made, then sent to blind reviewers for a final decision.

## REGISTRATION FEES AND POLICIES

Teams can be of any size. Fees are based on the date of registration, the number of teams registered under the same advisor, and the number of people per team (Advisors + Co-Advisors + Team Leaders + Students).

- Refer to the table below for team fees, discounts for early registration, discounts, and fees for additional members per team.
- Payment. The Advisor will pay by credit card through the [WERC Team Site](#). Contact us to make other payment arrangements ([werc@nmsu.edu](mailto:werc@nmsu.edu))
- Registration fees will not be refunded, except for unavoidable circumstances. In that case, the team will be reimbursed for the fees paid minus the team's portion of expenses incurred at the point they exit the contest, including the cost of materials ordered for your team and the cost to ship items to your team, if applicable.
- More details are on the [registration fee page](#) of our website.

| Registration Date    | First Team Fee<br>(base fee for up to 6 people on the team) | Additional teams under same Advisor (base fee for up to 5 people per team) | Fee per additional person on the team (above the base number) |
|----------------------|-------------------------------------------------------------|----------------------------------------------------------------------------|---------------------------------------------------------------|
| Nov 1 – Dec 31, 2025 | \$980                                                       | \$880                                                                      | \$170                                                         |
| Jan 1 – Jan 31, 2026 | \$1080                                                      | \$980                                                                      | \$170                                                         |
| Feb 1 – Feb 15, 2026 | \$1200                                                      | \$1100                                                                     | \$170                                                         |
| IEEE Discount*       | \$50                                                        |                                                                            |                                                               |

\*If at least one member of a team is an IEEE member, that team will receive a \$50 discount. We encourage you to join IEEE. Please encourage your students to join as well, since IEEE sponsors the WERC IEEE Conference and publication in *Xplore*. A student membership is only \$32. [Join IEEE](#).

## GOOGLE FORM

The registration system does not accommodate some of the information we need from each participant. Therefore, WERC will send each registrant a google form (or similar) to complete to provide the additional information we need. These include:

- **Meals**
  - WERC provides to all teams, advisors, and judges a Welcome Dinner on Sunday evening, lunch on Monday and Tuesday, a Taco Bar on Tuesday evening, and an Awards Banquet on Wednesday.
  - WERC will send a separate poll to ascertain your dietary preferences and restrictions: Please note that our caterer serves only chicken, beef, cheese, and vegan dishes at the contest. We never serve pork.
    - ✦ If we are able to accommodate your needs, we will email the person requesting accommodations to give instructions for working with our caterers during the contest.
    - ✦ If restrictions cannot be accommodated, the person with restrictions will need to arrange their own meals while in Las Cruces. We will email those who need to make their own accommodations. We apologize for any inconvenience, but your safety and your standards are of the highest priority to us, and we have learned over the years that some restrictions (such as Halal and Kosher and severe allergies, including black pepper) cannot be safely accommodated, due to our caterer's limitations.
- **T-shirt size** (for everyone) and **Jacket size** (for Advisors).
- **Additional demographic information.**
- **A brief survey of student confidence, skills, etc.**
- **Emergency contact information:** Make sure this is up to date when you arrive at the contest.

## REGISTRATION PROCESS

Register your team here: <https://www.competitionsocieties.org/competitions/werc-2026/>

Visit the [ICS Contact Us page](#) if you encounter any issues with your registration.

### Create Account:

1. **Sign Up for an account** . Provide name, email, username, confirm age (13+), and agree to ICS terms. You must be logged in to register for the contest.
2. **Select the Basic (Free) account.**

On your Dashboard:

- Follow competitions that interest you.
- Track deadlines through your calendar.
- Manage your team milestones.
- Join premium-only webinars for insider tips on winning competitions.
- Access the Competitions Concierge for guaranteed customer support.
- Get discounted registrations for ICS competitions and workshops worth over \$300.

Win more Competitions with ICS!

Enhance your college and career opportunities by using your ICS dashboard to find, join, and win more academic competitions!

### Description

Registration Fees:

- **First Team: \$980.** Includes one Advisor and up to 5 participants (students or co-advisors)
- **Additional Teams (same advisor): \$880** per team for up to 5 participants (students or co-advisors). Do not include the Advisor in this count.
- **Additional Members: \$170** per additional participants (students or co-advisors who are coming to the contest).
- **IEEE Discount:** Get \$50 off of one team's registration if at least one person on one of your teams is a member of IEEE. Use Discount Code IEEE50.

## SETTING UP YOUR TEAMS

Once you have paid for your team(s), you will receive this confirmation email: "To register your team as the coach (or to send the registration to the intended team coach) navigate to "My Teams" at <http://www.competitionsscience.org/dashboard>.

6. Click on the email link to go back to the WERC Registration site.
  - a) Click **My Teams sidebar [1]**.
  - b) Click **Start New Registration [2]**. Note that in the screenshot below, we already registered one team, but we haven't completed their registration.
  - c) You can go back any time to **complete registration** for your team(s) **[3]**.
  - d) Clicking either **Start New Registration or Complete Registration** will take you to a new screen.

The screenshot shows the ICS dashboard. On the left is a sidebar with the ICS logo and navigation links: My Dashboard, Upgrade My Account, Dashboard Home, My Teams (highlighted with a red box and labeled 1), My Awards, My Badges, My Rankings, My Events, and My Resources. The main content area has a notification bar, a filter bar with 'Show Competition' set to 'Show All' and checkboxes for Admin, Member, Coach, and Past Teams, and a 'Start New Registration' button (highlighted with a red box and labeled 2). Below this is a table of teams. The first row is for the 'WERC Environmental Design Contest: 2026' with a date of 'November 11, 2026' and a status of 'Incomplete'. The 'Status' column has a 'Complete Registration' button (highlighted with a red box and labeled 3) and a 'Send to another user' button. The table also includes columns for 'Competition', 'Date Purchased', and 'Status'.

| Competition                             | Date Purchased    | Status     | Send to another user                                                              |
|-----------------------------------------|-------------------|------------|-----------------------------------------------------------------------------------|
| WERC Environmental Design Contest: 2026 | November 11, 2026 | Incomplete | <button>Complete Registration</button> <input type="text"/> <button>Send</button> |

7. New Screen: **Team Info Tab [1] Enter:**

- a) Any **Team Name** you would like [2].
- b) **Full institution Name** [3].
- c) **Task Number** this team is working on [4].
- d) **Team Number** according to convention: **SCHL-Task#** [5].
  1. **SCHL** = School abbreviation (4-7 characters)
  2. **Task#** = Task number the team is entering
- e) Enter the **Student Team Leader's Name** [6].

Additional Information

Task Number (Required) 4  
Task 5

Team Number (Required) 5  
Team Number Format: SCHL-#  
SCHL = abbreviation of your Institution's name (Up to 7 letters)  
# = The task number the team is entering.  
If you entered a different format for your team's name, please update it to match this format. It helps WERC staff quickly identify the needs of each team. Thank you for your help!  
WERC-5

Team Leader (Required) 6  
Provide the name of your Student Team Leader (required):  
Team Leader Name:  
Lauren Flugle

Co-Advisors Registering (if any)

Screen continued on next page.

8. **Team Info Tab, continued:** Enter any Co-Advisors for this team who are coming to the contest. If no Co-Advisors for this team, leave blank [7].
- a) **Enter your Departmental Address.** This is the address to which we will send any samples or cash awards. You only need to do this for the first team's registration [8].
  - b) **Upload a photo of you for the Event Guide.** You only need to do this for the first team's registration [9].
  - c) **Enter your bio. Include research & teaching interests.** You only need to do this for the first team's registration [10].
  - d) **Upload your school's W9 only if your school is new to the contest.** Only do this for the first team's registration [11].
  - e) **Enter the number of people on this team who are members of IEEE.** Complete for each team's registration [12].
  - f) **Be sure to click **Update Registration** at the bottom of the page [13].**

Team Leader Name:  
Lauren Flugle

Co-Advisors Registering (if any) **7**  
Provide the name(s) of any Co-Advisors who will be registering for the contest (optional). This will help us link registered members to their roles at the contest.  
Dr. G.L. Smart

Departmental Address **8**  
Below include your departmental address  
This is the address to which we will send any materials and/or cash award checks.  
If you are registering multiple teams, you only need to provide this information during the first team's registration.  
NMSU COE Dept of Outreach  
1025 Stewart St.  
Las Cruces NM  
88003

Advisor Photo **9**  
Please upload a portrait of yourself for publication in the Contest Event Guide. If you are registering multiple teams, you only need to upload your photo once.  
Submitted file: 24501\_1762362885\_1762961228.jpg Nov 12, 2025 3:27pm UTC  
Upload different file

Advisor Bio **10**  
Please enter your bio for publication in the Contest Event Guide. If you are registering multiple teams, you only need to provide this information once.  
Kindly keep your bio within **600 characters**. If it exceeds that length, please edit it to fit—this ensures your information appears exactly as you intend.  
Thank you!  
Ginger Scarbrough is the Program Manager for the WERC Environmental Design Contest in the NMSU College of Engineering. In her role, Ginger partners with industry and government agencies to identify ground-breaking projects for students to solve. Ginger Scarbrough has been a faculty member at Purdue University, Ball State University, and New Mexico State University, teaching courses across multiple disciplines, including Computer Science, Control Systems Engineering, and Food Science. She earned her bachelor's

Upload W9 (If school is new to the contest) **11**  
If your school has participated in the contest within the past 6 years, we already have your W9 on file, and there is no need to upload it again.  
If this is your institution's first time participating in the WERC Environmental Design Contest in recent years, please upload your school's W-9 form. The W-9 form is available at the bottom of the registration page.  
Choose File No file chosen Upload  
Max File Size: 5MB  
Note: Trying to upload multiple files at the same time is not allowed. File should be a document or image. These include doc, pdf, jpg, png files, with others accepted as well.

IEEE Members **12**  
If you claimed the discount for having at least one IEEE member on one of your teams, please enter the number of people (including yourself) on this team who are IEEE members.

## 9. Add Members to your Team:

- Click on **Coach & Members** [1].
- **Coach:** The primary Faculty Advisor. You may switch to a different coach at any time [2].
- **Add Team Members** [3]. Click on **Add Members**.

The screenshot shows the 'Team Control Panel' for the '36th WERC Environmental Design Contest' by the 'ICS Institute of Competition Sciences'. The team is 'AgGreen', managed by 'MG Scarbrough' with ID '24501'. A navigation bar includes 'Team Info', 'News', 'Timeline', 'Resources & Files', 'Rounds & Submissions', 'Coach & Members' (annotated with a red box and '1'), and 'Scores'. The 'Coach & Members' section contains two sub-sections: 'Team Coach' (annotated with a red box and '2') and 'Team Members' (annotated with a red box and '3'). The 'Team Coach' section has a requirement to be 18 or older and radio buttons to select the coach role, with an 'Update Coach' button. The 'Team Members' section shows 'There are currently no members' and an 'Add Members' button. Below these is a 'Non-Registered Members' section with a text area for adding members and an 'Update Non-Registered Members' button. A left sidebar contains various user links like 'My Dashboard', 'My Awards', and 'My Account'.

**Team Coach**

Team Coach must be 18 years of age or older.

☒ Check here if you will be the Team Coach.  
☐ Check here if the Team Coach is someone else.

Update Coach

**Team Members**

There are currently no members

Add Members

**Non-Registered Members**

One per line. Use only for members who are not able to register as a user on the system.

Update Non-Registered Members

10. An **Add Members** window will pop up. In the pop-up window:

- **Copy the link and place it in an email to all members of this team [4].**
- **Invite Team Members (two options):**
  - a. **Easiest:** copy the validation code (unique to each team) and email it to all students on that team [4].
  - b. **Second option:** Separately enter the email address of each person you are adding to this team [5].

The screenshot displays the ICS Institute of Competition Sciences dashboard. On the left is a sidebar with navigation options: My Dashboard, Upgrade My Account, Dashboard Home, My Teams, My Awards, My Badges, My Rankings, My Events, My Resources, Followed Competitions, Manage Competitions, Judging, My Calendar, Concierge, and Store. Below these are 'Other links' including My Account, Logout, Delete Account, Home, News, and Competitions.

The main content area features a header with the ICS logo and a banner for the '36th WERC ENVIRONMENTAL DESIGN CONTEST NEW MEXICO STATE UNIVERSITY'. Below the banner is a 'Registration saved.' message. The 'Team Coach' section includes a note that the coach must be 18 years or older, with radio buttons to select if the user is the coach or if someone else is, and an 'Update Coach' button.

The 'Team Members' section shows 'There are currently no members' and an 'Add Members' button. Below this is a 'Non-Registered Members' section with a note: 'One per line. Use only for members who are not able to register as a user on the system.' It contains a text area for entering email addresses and an 'Update Non-Registered Members' button.

Overlaid on the right is the 'Add Members' pop-up window. It contains the following elements:

- 4: A text box with the instruction 'Copy the link below to give to new Team Members:' and a URL: [https://www.competitionsscience.org/dashboard/registrations?join\\_team=prsnoc](https://www.competitionsscience.org/dashboard/registrations?join_team=prsnoc).
- 5: A text box with the instruction 'New members use link above and this validation code to request joining the team' and a text input field containing the validation code 'si43bk', with an 'Update Validation Code' button below it.
- 6: A text box with the instruction 'To send an invitation to a new member, enter their email below:' and an email input field, with a 'Send Invitation' button below it.

## USING THE TEAM SITE: NEWS, TIMELINE, RESOURCES, SUBMISSIONS, SCORES

- **News:** Find all WERC news, such as updated timelines, contest schedules, etc.
- **Timeline:** Find a calendar of milestones and deliverables.

The screenshot shows the WERC Team Control Panel for the 36th WERC Environmental Design Contest: 2026. The team is AgGreen, Admin is MG Scarbrough, and Team ID is 24501. The left sidebar contains navigation links: My Dashboard, Upgrade My Account, Dashboard Home, My Teams, and My Awards. The main content area has a navigation bar with tabs: Team Info, News, Timeline, Resources & Files, Rounds & Submissions, Coach & Members, and Scores. The News and Timeline tabs are highlighted with red boxes.

- **Resources & Files:** Find all forms and templates you will need for submissions, as well as other resources related to your task.

The screenshot shows the WERC Team Control Panel for the 36th WERC Environmental Design Contest: 2026. The team is AgGreen, Admin is MG Scarbrough, and Team ID is 24501. The left sidebar contains navigation links: My Dashboard, Upgrade My Account, Dashboard Home, My Teams, My Awards, My Badges, My Rankings, My Events, My Resources, and Followed Competitions. The main content area has a navigation bar with tabs: Team Info, News, Timeline, Resources & Files, Rounds & Submissions, Coach & Members, and Scores. The Resources & Files tab is highlighted with a red box. Below the navigation bar, the Resources & Files section lists: 30% Project Review Form, Equipment Transport Form, and ESP Template.

- **Rounds & Submissions [1]:** Your Task is one of the numbered Rounds [2], [3], etc.
  - After the registration deadline, you will only be able to see your team's Task plus the Flash Pitch Round.
  - **To submit items that are due, such as your team photo or the report: Press Edit [4] under Status.**

The screenshot shows the WERC Team Control Panel for the 36th WERC Environmental Design Contest: 2026. The team is AgGreen, Admin is MG Scarbrough, and Team ID is 24501. The left sidebar contains navigation links: My Dashboard, Upgrade My Account, Dashboard Home, My Teams, My Awards, My Badges, My Rankings, My Events, My Resources, Followed Competitions, Manage Competitions, Judging, My Calendar, Concierge, Store, and Other links (My Account, Logout, Delete Account, Home, News). The main content area has a navigation bar with tabs: Team Info, News, Timeline, Resources & Files, Rounds & Submissions, Coach & Members, and Scores. The Rounds & Submissions tab is highlighted with a red box and labeled with a red '1'. Below the navigation bar, the Rounds & Submissions table is displayed. The table has columns: Round, Submissions Open, Submissions Close, and Status. The first row is for Task 1. After RO: Brine Management in the Desert. The second row is for Task 2. Power Plants: Recovering Water from Cooling Towers. The third row is for Task 3. Bio-inspired Critical Mineral Recovery in Mining Waters etc. The Resources for this round are listed for each task. The Status column shows '0 of 4 required done' and an 'Edit' button, which is highlighted with a red box and labeled with a red '4'.

Page continues  
through Task 7

[Go to Table of Contents](#)

- **To Submit (continued):**

- After clicking **Edit**, a **Submission** menu will pop up [1]. Make sure it is for the correct Task. [2]
- **All but two submissions require file uploads.** For the two exceptions:
  - Juanita Miller will check for your ESP Course attendance
  - Email your ESP to Juanita Miller.
- After any submission, press **Save** at the bottom of the Submission Window [3].
- You may come back to the Submission window at any time.

The screenshot shows the WERC submission interface. On the left is a sidebar with navigation links like 'My Dashboard', 'Upgrade My Account', 'Dashboard Home', 'My Teams', 'My Awards', 'My Badges', 'My Rankings', 'My Events', 'My Resources', 'Followed Competitions', 'Manage Competitions', 'Judging', 'My Calendar', 'Concierge', 'Store', and 'Other links'. The main content area displays a list of tasks under the heading 'Round'. The tasks are:

- Task 1. After RO: Brine Management in the Desert**
- Task 2. Power Plants: Recovering Water from Cooling Towers**
- Task 3. Bio-inspired Critical Mineral Recovery in Mining Waters**
- Task 4. NASA Survive the Night: Logistics Container Challenge**
- Task 5. Enhanced Evaporation for Produced Water**

Each task has a 'Resources for this round' section with links to '30% Project Review Form', 'ESP Template', and 'Equipment Transport Form'. On the right, a detailed submission form is shown for 'Task 2. Power Plants: Recovering Water from Cooling Towers'. The form includes sections for:

- Team Photo - Traditional**: Upload a team photo in a traditional pose that would be more appropriate for business distribution. (Choose File, No file chosen, Max Filesize: 6MB)
- Team Photo - Fun**: Upload a photo of your team doing something fun or creative. (Choose File, No file chosen, Max Filesize: 6MB)
- 30% Project Review** (Required): Due by Jan. 30, 2026. (Choose File, No file chosen, Max Filesize: 6MB)
- ESP Course** (Required): Complete by February 20, 2026. All team members are required to attend the course. Find the link to the course under "Resources."
- ESP Forms**: Due: March 13, 2026 Email to Juanita Miller (miljgh@nmsu.edu)
- Equipment Transport Form** (Required): Due March 30, 2026 if shipping items to Las Cruces Find form template under "Resources" (Choose File, No file chosen, Max Filesize: 6MB)
- Technical Report** (Required): Due April 2, 2026, 11:59 PM, your time zone. Uploads are limited to 5MB on this site. If needed, compress your file prior to submission. (Choose File, No file chosen, Max Filesize: 6MB)

A red box highlights the entire submission form, and a pink box highlights the 'Save' button at the bottom right.

- **Coach & Members:** Discussed on pages 19-20.

- **Scores:** Find your team's scores after April 15, 2026.
